**Back to School
Driving Safety Tips**

-  Obey school zone speed limits
-  Never pass a bus loading or unloading children
-  The area 10 feet around a school bus is the most dangerous for children so stop far enough back to allow them to safely enter and exit the bus.

The school bus stops at the entrance of Shakertown.

If you drive your children to the bus stop, please do not park on the grass.

We would like to wish all of the children a happy school year. Study hard and play hard, it is all worth the extra effort.
