**Let's Save Water**

When doing laundry, always wash full loads

Don't let the water run while brushing your teeth or shaving

Report any leaks or drippy faucets to maintenance right away

Take shorter showers (5 minutes is suggested)

**SPRING**

March 19, 2024 is the first day of Spring also known as the vernal equinox. During this time, the direct rays of the sun hit the equator, making day and night equal in length. The earth begins waking up, plants start to sprout from the ground and animals come out of hibernation.
